Summary

Computer Science undergraduate with knowledge of **Web Development, Data Structures, Operating Systems, and Computer Networks**. Skilled in building responsive websites and solving real-world problems. Familiar with **frontend technologies and networking fundamentals (TCP/IP, OSI model)**. Seeking a **Web Developer role** to build scalable and user-friendly web applications while enhancing technical skills.

Education

- **B.Tech in Computer Science Engineering (2022–2026)**
Sanaka Educational Trust's Group of Institutions (MAKAUT)

Technical Skills

- **Programming:** Java
- **Web Technologies:** HTML, CSS, JavaScript
- **Core Subjects:** Computer Networks, DBMS
- **Concepts:** TCP/IP, OSI Model, Multithreading (Basics)
- **Tools:** Git, GitHub, VS Code

Projects

Sandesh – Real-Time Chat Application

Live Demo | GitHub

- Developed a real-time chat application enabling multi-user communication with low latency.
- Implemented message synchronization using Firebase backend.
- Designed responsive UI for better user experience.
- **Tech Stack:** Java, Firebase

Amrit Ayurveda Health Clinic – Website

Live Link

- Built a responsive and performance-optimized website.
- Designed clean UI for accessibility and smooth navigation.
- **Tech Stack:** HTML, CSS, JavaScript

Basic Socket Programming (Mini Project)

- Implemented a basic client-server communication system using sockets.
- Demonstrated understanding of TCP/IP communication concepts.
- **Tech Stack:** Java / C++
